

Electronic Dimmer for Dimmable Ballasts

Dimmers-BD-A (10 Amp)

Height: 4 1/2"
Width: 2 3/4"

BD-B(16 Amp)

Technical information:

Electronic potentiometer type: FL 1x1000-2200/100-277V FL DIM-A

Article Number:BD-A;BD-A for recessed wall mounting, Standard 120 front-panels

Designed for 1-10V regulating electronic ballasts, transformers and power dimmers.

Suitable for Deep Roof Lighting "DIM-A" dimmable ECG series

Specifications:

- On/off switching by pushing the button
- Controlling the light output by turning the button
- Suitable to be used with cover-units of some other manufacturers
- Bright degree of the convenient control fluorescent lamp
- compatible all 0/1-10V interface dimmable ballast
- Safeguard of overrun current, capability stabilize
